Free training in fish processing

Kochi: Central Institute of Fisheries Technology is conducting two skill development programmes consecutively on the topics of ‘Value addition of Fish and Fishery products’ and ‘Fish Waste Utilization includes preparation of Farm feed, Silage and Foliar Spray’ respectively. Both the free training programmes are of three days duration and can accommodate 25 participants in each course on a first come first serve enrollment basis. Those who interested to participate can contact 0484-2412300 for registration.
