

3-day training programme at CIFT

Kochi: A three-day training programme on Good Food Laboratory Practices (GFLP), organised by Food and Safety Standards Authority of India in collaboration with Central Institute of Fisheries Technology, was inaugurated on Tuesday. Dr. C. N Ravishankar, director, CIFT, inaugurated the training programme which is being attended by research analysts and scientific and technical personnel of various regional food analytical labs and research and training institutes across the country. The programme focuses on quality assurance in lab practices at par with FSSAI standards.
