

CIFT to organise fisheries business meet

The Central Institute of Fisheries Technology (CIFT), Kochi, will organise a fisheries business meet, AquaBiz 2.0, here for accelerating transformative growth in the fisheries sector.

The Zonal Technology Management - Agribusiness Incubation Centre of ICAR-Central CIFT will organise the meet in association with Agrinnovate India and the National Fisheries Development Board. AquaBiz 2.0 aims to explore the latest technologies from fisheries research institutes under the ICAR, says a press release here.

The event will provide a platform for participants to connect with scientists and innovators behind new technologies as well as with government agencies related to fisheries.

It will feature cutting-edge advancements in eco-friendly harvest technologies for marine and aquaculture sectors, seed production and grow-out technologies, breeding and rearing of ornamental finfishes and shellfishes, cost-effective and nutritive fish feed formulations, diagnostics, vaccines, and disease management.

Additionally, the event will highlight post-harvest technologies and value addition, nutraceutical products and high-value by-products as well as technologies for fish waste utilisation, according to the release.

The event will be held at Hotel Avenue Centre, Panampilly Nagar, Kochi, on March 18, 2025 from 9 a.m. Those interested can register for free via the registration link available on the ICAR-CIFT website (www.cift.res.in) or by emailing ztmlfisheries@gmail.com. The registration deadline is March 16, 2025.
